Commissioner of Patents  
Washington, D.C. 20231

Sir:

Responsive to the Office Action dated March 6, 2002, kindly amend the above-identified application as follows:

IN THE CLAIMS

Please amend Claim 1 as follows:

1. (amended) A board anchor comprising a threaded screw shaft having a longitudinal axis, a freely rotating anchor section attached to the screw shaft, an attachment for re-positioning the anchor section in a first position substantially perpendicular to the longitudinal axis of said screw shaft from an initial position parallel with said longitudinal axis of said screw shaft, a stopper mechanism that stops said screw
